

Instructions for using J2e.

This will be a new website for some of the children so it is for them to explore the tools available.

Step 1- When you log into hwb, you should have this page come up.

Step 2- Then click on Just2easy.

Step 3- Select Jit5.

Step 4- Explore the range of tools on this page from the top of the page.

Step 5- Once they have created something, there is an option to save if they want to.
